

AZOH: A rally has been held in the United Kingdom to protest against Iran's policies towards the Lake Urmia.

It was announced by representative of the South Azerbaijan Independence Party Araz Yurdsevan.

The protestors strongly condemned Iran's policies related the Lake Urmia and urged to stop drying up of the lake.

"The rally participants made it clear that the Lake Urmia drying up is a deliberate plan aimed at resettling 15 million Azerbaijanis living there from these territories," Yurdsevan said.

Slogans in English and Turkish were chanted at the end of the rally. The next similar rally will be held in the Netherlands on 18 September.
